02

01 Your new T-Roc Cabriolet reflects what you want it to. And you have a world of choices. As an option, glide down the road on **18-inch Montego Bay**¹ alloy wheels. **LED headlights**, including signature light, enable you to show yourself in the best possible light.

OE

02 Exceptional and stylish: both the new T-Roc Cabriolet and its wheels. Even the standard **17-inch Mayfield**¹ alloy wheels make your new T-Roc Cabriolet shine. **S**

03 Sporty in every way: A striking **rear-end design** establishes a progressive image for the new T-Roc Cabriolet. With an aerodynamic rear spoiler and sleeker LED tail lights, its powerful character is noticeable at first glance. **S**

¹ Our vehicles are fitted with summer tyres as standard.

Everything except restrained

With its unique design, the new T-Roc Cabriolet manages to make an uncompromising splash with its Style line of standard equipment, which pushes all boundaries. The flexible all-rounder combines sportiness with elegance, power with easiness, and makes for maximum driving pleasure. Those who can't choose between a compact SUV and a convertible will find the best of both worlds here.

03

Like riding above the clouds

In the city, at the beach, or perhaps in the mountains? It's your choice in the new T-Roc Cabriolet. The interior of this urban SUV leaves nothing to be desired and is the perfect partner for your daily driving. Look forward to a new feeling of freedom that livens up the old routine and turns each day into a new adventure.

01 The new T-Roc Cabriolet provides the highest level of **sitting comfort**. A raised seating position gives you a better overview of the road and the optional **lumbar support** bolsters your back. **R** **OE**

02 Choose from our variety of **decorative trims in different colours**, then let the new T-Roc Cabriolet reveal what it's got when you open the top.

R-Line Exterior

Some things simply can't be described – you have to feel them for yourself. Like the modern sports running gear in the new T-Roc Cabriolet, presented with optional Black Style design package – turning every trip into an intense experience. Other things need no explanation – they leave a strong impression upon first glance, like the R-Line bumper.

01

01 A few millimetres less. And that's all it takes to crank up the handling and driving pleasure in the new T-Roc Cabriolet R-Line. Why is that? Apart from the lowered body, the **sports running gear** offers taut springs, shock absorbers and stabilisers for an especially responsive ride. **S**

02 The alloy wheels impress with their dynamic look, whether at rest or in motion. The optional **19-inch San Marino alloy wheels**¹ lend your new T-Roc Cabriolet R-Line an individual note. **OE**

¹ Our vehicles are fitted with summer tyres as standard.

R-Line Interior

Sport is most enjoyable when practised under a clear blue sky. This also applies to the new T-Roc Cabriolet R-Line with its sport convenience seats. Sitting in them, you enjoy maximum comfort and a pleasant breeze. Those who know to appreciate dynamics beyond the driving itself will recognize the quality of every detail in the exciting R-Line interior design.

03 Due to their uniform contours in the backrest and head restraint, the **sport convenience seats** not only look similar to a bucket seat, but they also offer enhanced side support. The optional R-Line Vienna leather package gives the final touch to their overall look and feel. **OE**

01

02

01 It's truly all in your hands: Just choose your desired configuration for the high-resolution 29.3 cm **Digital Cockpit** display. Now you only see what you want to see. In vibrant colours with high contrast.

OE

02 You are driving under clear blue skies along a coastal road, listening to the perfect song on a premium sound system. Sound good? You bet! The optional **"beats" sound system** with six high-performance speakers, powerful subwoofer and 400-watt total power was optimised especially for the new T-Roc Cabriolet. **OE**

03 Like to listen to music when you're driving? And have all the information you need while on the road? Groundbreaking entertainment is an integral aspect of the new T-Roc Cabriolet. The **Discover Media navigation system** is all that and more. **OE**

Stay connected when out and about

This special Cabriolet keeps you aware of more than just your external surroundings. The 11.7-inch Digital Cockpit also gives you all the other important information, such as navigation instructions or the title of the next song on your playlist – which will sound fantastic, thanks to the "beats" premium sound system with six integrated speakers. And so you can stay focused on driving, we made sure these functions can be operated intuitively.

03

Everything in view, and not just when the top is down

01

01 With **Keyless Access** you can say goodbye to hunting for your keys. As long as you have it with you somewhere, and are no more than 1.5 metres away from the vehicle, the doors and boot lid unlock automatically. Open or close the convertible top at the touch of a button. Store your personal items conveniently in the lockable glove box. **OE**

Be spontaneous – whenever you feel like it. You can open the convertible top in just nine seconds while driving up to a speed of 30 km/h – and if necessary just as easily close it again within 11 seconds. The optional windbreak reduces air gusts swirling around the interior and the build-up of distracting noise. The only thing still missing for a totally relaxed ride is the Lane Assist lane keeping system. Fortunately, this is standard in the new T-Roc Cabriolet.

02

03

04

05

02 The optional feature **Adaptive Cruise Control** helps you to maintain the maximum speed¹ as well as the distance to the vehicle ahead you have set.² In a traffic jam, your new T-Roc Cabriolet can thus automatically brake and then continue driving (with the optional DSG double clutch gearbox). **OE**

03 The standard-equipped **Front Assist autonomous emergency braking system with Pedestrian Monitoring** can warn you of critical situations presented by pedestrians or vehicles and, in an emergency, even brake by itself.² **S**

04 Difficult parking space? **Park Distance Control** uses beeping and graphics in the Infotainment display to signal whether there is still space at the front or rear of your new T-Roc Cabriolet. **OE**

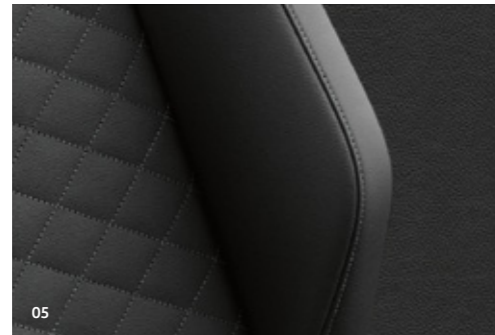

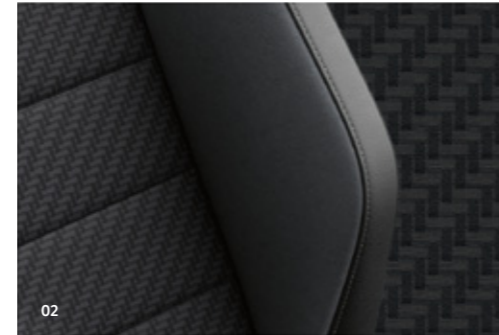

05 In the event of stop-and-go traffic, the optional feature **Traffic Jam Assist** can autonomously follow the vehicle ahead and stay in the lane, thanks to ACC and Lane Assist.^{2,3} Frustration transforms into relaxation. **OE**

¹ Up to maximum 210 km/h.

² Within the system limits.

³ Only in conjunction with the optional DSG dual clutch gearbox.

volkswagen.com

You can find up-to-date information regarding consumption and CO₂ emissions values/ standards at www.volkswagen.de/emission.

The specified consumption and emissions values were obtained using the legally required measurement procedure. Since 01 Sept 2017, certain new vehicles have been type-approved according to the Worldwide Harmonised Light Vehicle Test Procedure (WLTP), a new, more realistic testing process for measuring fuel consumption and CO₂ emissions. The WLTP will gradually replace the New European Driving Cycle (NEDC) beginning 01 Sept 2018. Due to the more realistic testing conditions, the fuel consumption and CO₂ emissions values measured according to the WLTP are often higher than those measured under the NEDC. This may result in corresponding changes to vehicle taxation from 01 Sept 2018. Further information about the differences between the WLTP and NEDC is available at www.volkswagen.de/wltp. It is currently still mandatory to include NEDC values in communications. For new vehicles that have been type-approved according to the WLTP, NEDC values will be derived based on WLTP values. The additional provision of WLTP values is voluntary until their application becomes mandatory. If NEDC values are specified as a range, they are not based on any individual vehicle and do not form part of the offer. They are provided purely for comparison purposes between the various types of vehicle. Additional equipment and accessories (attachments, tyre format, etc.) could change relevant vehicle parameters, such as weight, rolling resistance and aerodynamics. As well as weather and traffic conditions and personal driving style, these add-ons could also affect a vehicle's fuel consumption, power consumption, CO₂ emissions and performance. Note in accordance with the current version of Directive 1999/94/EC: Further information regarding official fuel consumption and the official specific CO₂ emissions for new passenger vehicles is provided in "Guidelines on fuel consumption, CO₂ emissions and electricity consumption of new cars", which is available free of charge from all points of sale and DAT Deutsche Automobil Treuhand GmbH, Hellmuth-Hirth-Straße 1, 73760 Ostfildern/Scharnhausen, Germany (www.dat.de/co2).

The vehicles shown in this brochure may be equipped with optional extras at additional cost. All the information regarding equipment and technical data is based on the characteristics of the German market and corresponds to the knowledge available at the time of printing. Your local Volkswagen Dealer will be happy to provide you with details on the products available in your country. Subject to change, errors excepted.
